

Possible Scenarios of District Eligibility for Technical Assistance based on 2025 Dashboard Outcomes

Note: This document is specific to **districts and does not include Charters or County Offices of Education eligible for Differentiated Assistance.*

District Description	Technical Assistance Provider	Education Code
District A is eligible for Differentiated Assistance (DA) for the first time in 2025.	The County Superintendent of Schools (or designee) of the county in which the district is located is responsible for providing DA.	See Education Code 52071(c)(1) for details about technical assistance.
District B does <u>not</u> meet eligibility requirements for DA in 2025, but was previously eligible for DA in 2024.	The County Superintendent of Schools (or designee) of the county in which the district is located is responsible for providing DA. Since DA is a <u>two-year process</u> , the COE continues to provide support for a second year, even though the district does not meet DA eligibility criteria in 2025.	See Education Code 52071(c)(1) for details about technical assistance.
District C is eligible for DA in 2025 (Year 1) and was eligible for DA in 2024 for a <u>different student group</u> (Year 2).	The County Superintendent of Schools (or designee) of the county in which the district is located is responsible for providing DA. Since DA is a <u>two-year process</u> , the COE continues support for the student group meeting eligibility in 2024 (Year 2 DA), but also provides assistance to address the needs of the student group meeting DA eligibility criteria in 2025 (Year 1 DA).	See Education Code 52071(c)(1) for details about technical assistance.
District D is eligible for DA in 2025 and was previously eligible for DA in 2024 for the <u>same student group</u> (two consecutive years).	The County Superintendent of Schools (or designee) of the county in which the district is located is responsible for continuing to provide DA support based on 2025 eligibility (Year 1) and prior year 2024 eligibility (Year 2).	See Education Code 52071(c)(1) for details about technical assistance.
District E did <u>not</u> meet a CALPADS submission deadline in 2024 and, as such, meets eligibility requirements for DA in 2025.	The County Superintendent of Schools (or designee) of the county in which the district is located is responsible for providing DA focused on the school district's data management processes. CA School Information Services (CSIS) serves as a state partner in supporting CALPADS DA.	See Education Code 52071(c)(2) and 60900 for details about technical assistance
District F is eligible for DA in 2025 and was previously eligible for DA in 2023 and 2024 for a <u>different student group</u> (multiyear eligibility for different student groups).	The County Superintendent of Schools (or designee) of the county in which the district is located is responsible for continuing to provide DA support (COE continues supporting prior year eligibility as a two-year process, and supports DA for student group meeting criteria for the first time).	See Education Code 52071(c)(1) for details about technical assistance.
District G is eligible for DA in 2025 for <u>one student group</u> and was previously eligible for DA in 2023 and 2024 for the <u>same student group</u> (<u>three consecutive years</u>).	The Geographic Lead Agency shall, <u>in collaboration with</u> the County Superintendent of Schools (or designee) of the county in which the district is located, provide technical assistance. See Requirements and Sample Activities .	See Education Code 52071(f) for details about technical assistance provided by the Geographic Lead Agency.

District Description	Technical Assistance Provider	Education Code
District H is eligible for DA in 2025 for <u>two student groups</u> and was previously eligible for DA in 2023 and 2024 for the <u>same two student groups (three consecutive years)</u>.	The Geographic Lead Agency shall, <u>in collaboration with</u> the County Superintendent of Schools (or designee) of the county in which the district is located, provide technical assistance. See Requirements and Sample Activities.	See Education Code 52071(f) for details about technical assistance provided by the Geographic Lead Agency.
District I is eligible for DA in 2025 for three (or more) student groups. District I was previously eligible for DA in 2023 and 2024 for the <u>same three student groups</u>. NOTE: Indicators might differ each year, but the same student groups met DA eligibility criteria in 2023, 2024, and 2025.	The California Collaborative for Educational Excellence (CCEE) shall determine, in consultation with the <u>school district</u> and <u>any provider of technical assistance</u>, if assistance from the CCEE is necessary (known as Direct Technical Assistance - DTA). Since the district meets criteria for DA, GeoLead DA, and DTA, the CCEE will coordinate a meeting with all three technical assistance agencies to determine the best approach for providing/aligning technical assistance efforts with the district.	See Education Code 52071(f) for GeoLead DA and 52072 and CCEE website for details about Direct Technical Assistance (DTA).
District J is eligible for DA in 2025 for three (or more) student groups. District J was previously eligible for DA in 2022 and 2023 for the <u>same three student groups</u> but did <u>not</u> meet DA criteria in 2024. NOTE: Indicators might differ each year, but the same student groups met DA eligibility criteria in 2022, 2023, and 2025.	The California Collaborative for Educational Excellence (CCEE) shall determine, in consultation with the <u>school district</u> and <u>any provider of technical assistance</u>, if assistance from the CCEE is necessary (DTA). The district is <u>not</u> eligible for GeoLead DA because eligibility requires <u>three consecutive years</u> for the <u>same student group</u> but District J did not meet eligibility criteria in 2024.	See Education Code 52071(f) for GeoLead DA and 52072 and CCEE website for details about Direct Technical Assistance (DTA).
District K did <u>not</u> meet eligibility criteria for DA in 2025, but District K was previously eligible for DA in 2022, 2023 and 2024 for the <u>same three student groups for three of four consecutive years</u>. NOTE: Indicators might differ each year, but the same student groups met eligibility criteria in 2022, 2023, and 2024.	The California Collaborative for Educational Excellence (CCEE) shall determine, in consultation with the <u>school district</u> and <u>any provider of technical assistance</u> including the County Superintendent of Schools (or designee) of the county in which the district is located (Year 2 DA), if assistance from the CCEE is necessary. Although the district does not meet criteria for DA in 2025, it remains eligible for DA Year 2 and DTA because it met criteria <u>three out of four consecutive years</u>. The CCEE will coordinate meetings with the district and COE. The district is <u>not</u> eligible for GeoLead DA because eligibility requires <u>three consecutive years</u> for the <u>same student group</u> but District K did not meet eligibility criteria in 2025.	See Education Code 52071(f) for GeoLead DA and 52072 and CCEE website for details about DTA.

District Description	Technical Assistance Provider	Education Code
District L is eligible for DA in 2025 for <u>three (or more) student groups</u>. District L was previously eligible for DA in 2023 and 2024 for <u>three student groups</u> but the student groups meeting eligibility criteria <u>differed</u> each year and no student group was eligible for DA for three consecutive years.	The County Superintendent of Schools (or designee) of the county in which the district is located is responsible for continuing to provide DA support.	See Education Code 52071 for details about technical assistance.
District M is eligible for DA in 2025 for <u>three (or more) student groups</u>. District M was previously eligible for DA in 2023 and 2024 for <u>three student groups</u> but only one student group was eligible for DA for <u>three consecutive years</u> (2023, 2024, and 2025).	The Geographic Lead Agency shall, <u>in collaboration with</u> the County Superintendent of Schools (or designee) of the county in which the district is located, provide technical assistance. See Requirements and Sample Activities.	See Education Code 52071(f) for details about technical assistance provided by the Geographic Lead Agency.
District N is eligible for DA in 2025 for one student group and was previously eligible for DA in 2023 and 2024 for the same student group (three consecutive years for the same student group). The County Office of Education supporting District N is also serving as the Geographic Lead agency.	Education Code 52071(f) requires that the Geographic Lead Agency shall, in collaboration with the County Superintendent of Schools (or designee) of the county in which the district is located, provide technical assistance. If <u>the County Superintendent of Schools (or designee) is also serving as the Geographic Lead</u>, then the County Superintendent (or designee)/Geographic Lead must determine the most appropriate course of action to <u>enhance</u> existing DA support for the eligible district: • Determine if additional COE team members are available and have expertise to augment and deepen existing DA efforts for the District N. • Identify Statewide System of Support leads to support the COE/GeoLead in augmenting support for District N. • Consult with other Geographic Lead agencies to determine capacity and expertise for another GeoLead to support District N (a support contract may be required).	See Education Code 52071(f) for details about technical assistance provided by the Geographic Lead Agency.
